EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Atty. Thomas McKiernan on June 29, 2006. The application has been amended as follows: claim 10 is cancelled, since it is substantially identical to claim 1 in claiming the structural limitations of the molding machine.

The following is an examiner's statement of reasons for allowance: Prior art fails to teach a molding machine comprising a stationary platen carrying a stationary mold; a movable platen arranged movably relative to said stationary platen and carrying a movable mold; a first base frame supporting a first mass including said stationary platen; and a second base frame supporting a second mass different from said first mass, said second mass including said movable platen, further comprising a rear platen disposed, at a location opposite to said stationary platen, about said movable platen, and a tie bar tying said stationary platen and said rear platen with each other and defining a longitudinal axis extending in a direction of movement of said movable platen; wherein said first mass includes said rear platen and said tie bar. Prior art only teaches

a molding machine with a first and second base frame, however, *without the inclusion of a tie bar tying said stationary and rear platens, respectively.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
